

HOSPITALITY & LEISURE LIGHTING

# CROWNE PLAZA HOTEL

LEEDS

**GAMMA**  
ILLUMINATION

# PROJECT OVERVIEW

- Gamma brings flexibility to The Roundhay Suite at the Crowne Plaza Hotel in Leeds
- Sysion MF with DALI dimming offers flexibility and control over the lighting system when the Roundhay Suite is hosting multiple functions
- Great White TTS complemented the lighting scheme by creating a pleasant wall wash effect on the perimeter walls
- Global Trac with Lingo track spotlights were strategically placed to provide accent lighting where required
- Discreet stand-alone ILEM emergency lighting was also installed throughout

**GAMMA**  
ILLUMINATION

**“DALI’s dimming and control features match our requirements perfectly. The lighting in each section of the room can be controlled independently when the partition walls are up or adjusted all together as one – which not only gives us flexibility but also reduces the energy usage significantly.”**

Matt Byram, Hotel Manager, Crowne Plaza, Leeds
