# Gamma spotlights designer footwear at new Carl Scarpa stores

Carl Scarpa has been a leading designer of stylish, eye-catching footwear for women for over 40 years and currently has 18 stores throughout the UK and Ireland. Their newest stores opened in Winchester and Cheltenham in 2021 and Gamma worked with The Lighting People to create lighting schemes that really make the most of the colourful products and store designs.

## Products Used

## LINGO

Lingo track spots were chosen with DALI dimming for maximum flexibility. The Philips Premium White modules give a high colour rendering of Ra90 and crisp, clean whites to really make the colourful products stand out on the displays.
