

RETAIL LIGHTING

**DENHAM**

LEEDS

**GAMMA<sup>®</sup>**  
ILLUMINATION

# PROJECT OVERVIEW

- Tobbell Electrical Ltd partners with Gamma to help premium denim brand Denham move from traditional light sources to LED
- Gamma's 2000 lm Lingo track spotlight offered optimum performance thanks to its Philips Fortimo SLM module, Xitanium driver and highly efficient 20-fin heatsink
- Lingo's contemporary design and white and grey finish blended well with the store's interior: a mix of modern and vintage materials against crisp white walls
- Lingo's 4000 K colour temperature and high colour rendering brought the merchandise to life

**GAMMA**  
ILLUMINATION

"We were looking for an energy efficient LED track lighting solution for this project and I was impressed by Lingo's aesthetics and performance. Gamma's valuable input is an asset to our range of services."  
Jimmy Roche, Sales Representative, Tobbell Electrical Ltd
