Suspended

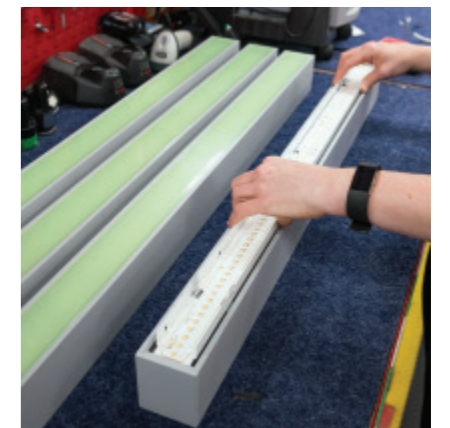

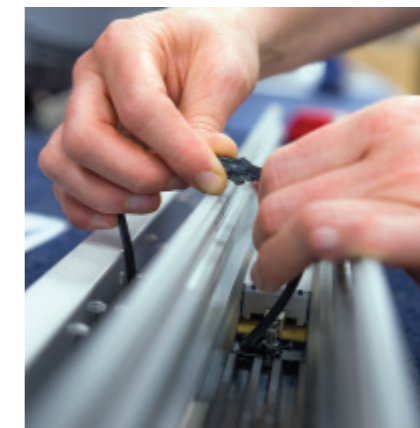

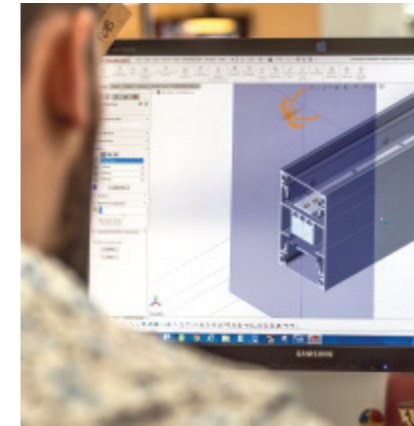

PROFLUX™

Designed, manufactured and tested in the UK, the Proflux range of contemporary linear profiles combines style, elegance and outstanding performance. Perfectly suited to operate as a solo luminaire or as a continuous line of light, the multitude of options available provides a comprehensive offering for your creative and practical requirements.

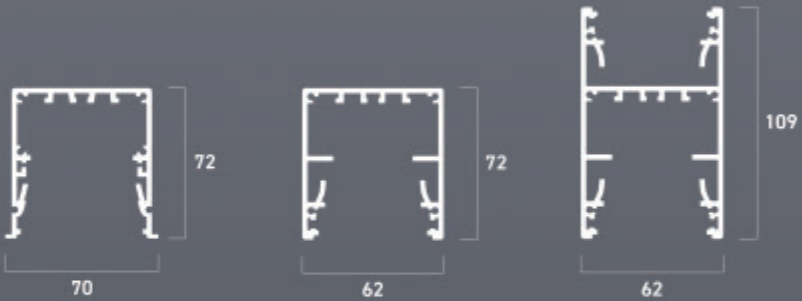

PROFLUX™

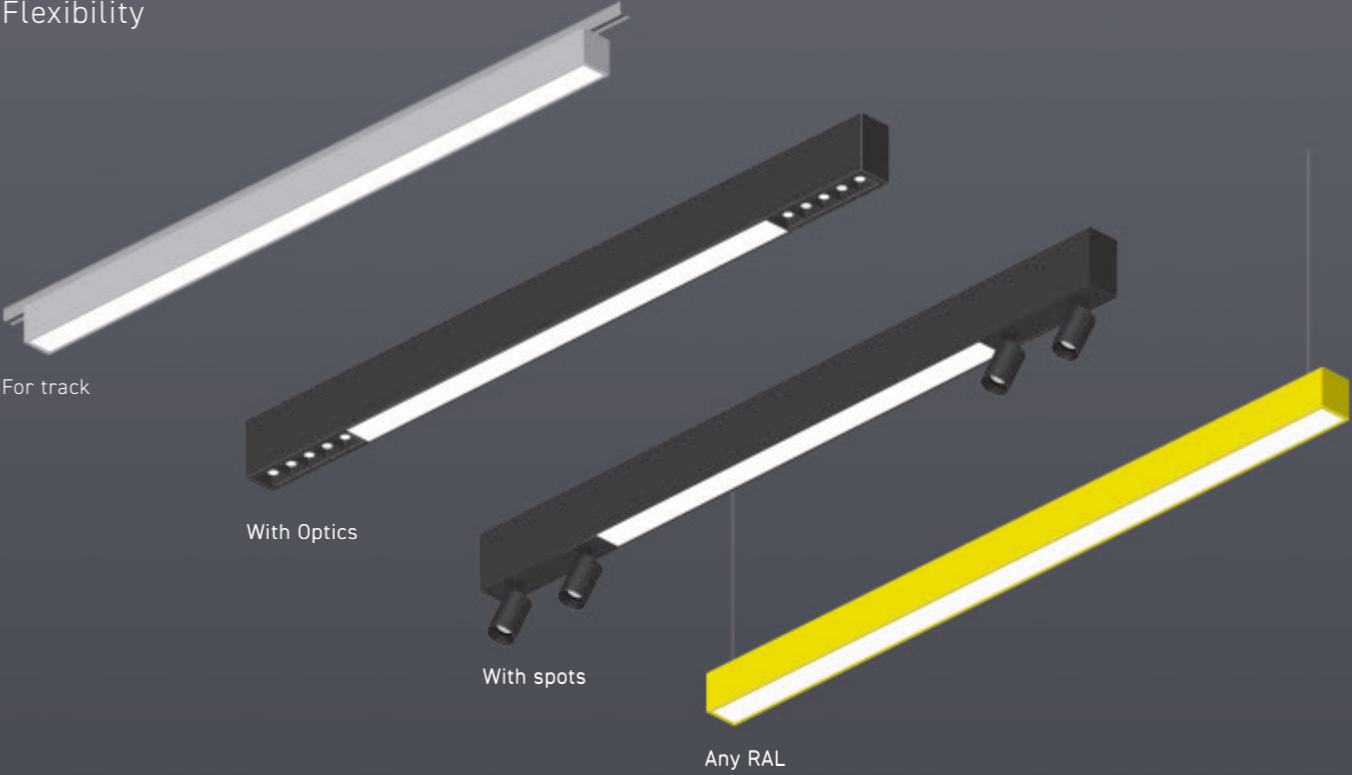

Profiles

Whether your application is recessed, surface mounted or suspended, the Proflux linear profile system uses common design details to ensure continuity of installation, commissioning, performance and reliability.

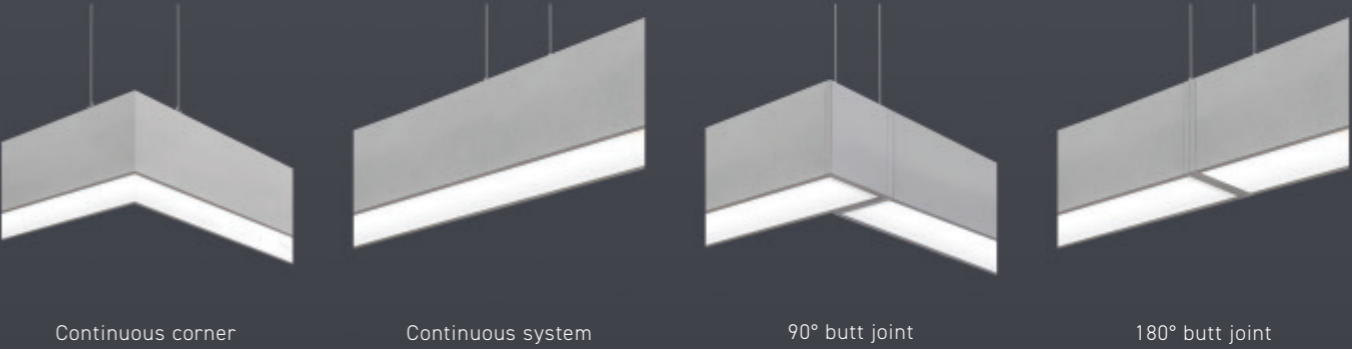

These precision-engineered design details allow components of the Proflux system to be tailored to meet your exact requirements without compromise.

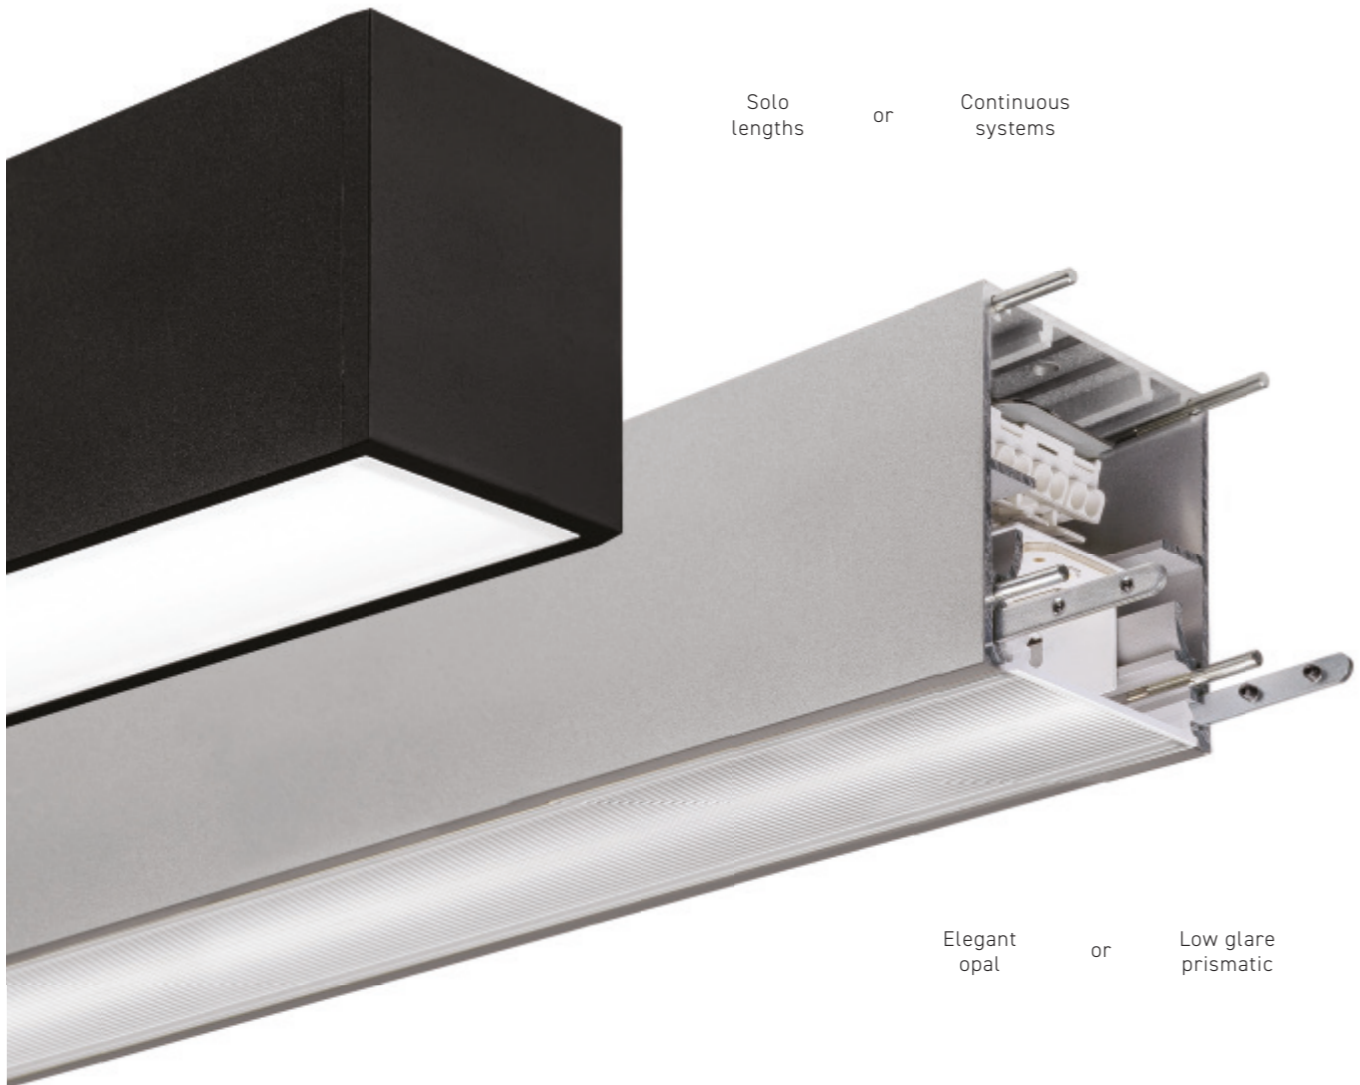

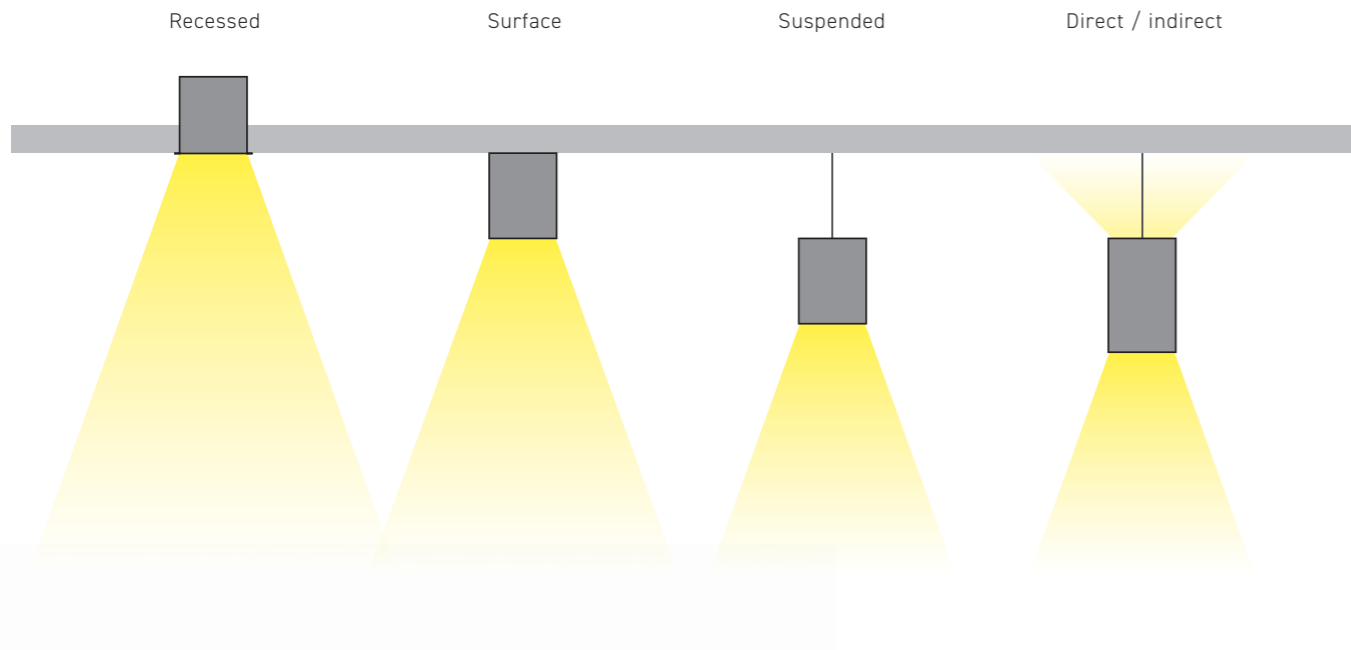

Flexibility

Joints

1 Luminaire

Solo code:	AHB	AFC	AFC/SUS	AFD
Continuous code:	AHC	AGC	AGC/SUS	AGD

2 Output

Please refer to datasheet for detailed output information

3 Lens

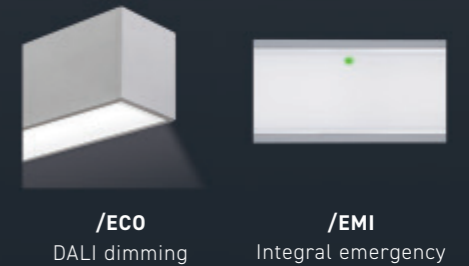

4 Finish

Please note: White is standard on recessed Proflux
