Bertie has worked in lighting for six years, following his first job at Thorntons, which was less challenging but the samples were much tastier. After a brief spell in order-processing, he quickly moved to estimating, which he has been doing ever since. He has also done some logistics and technical work in the past, along with a lighting design course.

In his spare time, Bertie is the lead guitarist with rock band, The Situation is Bad, (check them out on Spotify). He also confesses to being a big nerd and loves to play D&D and video games with his friends.
