

Case Study

Jake Shoes

Altrincham, Cheshire

Jake Shoes, Altrincham

Renew and reuse

Founded in 1975, **Jake Shoes** is a proudly independent, family-run business with two high street stores in Cheshire.

Gamma originally supplied the track lighting system, complete with **Jingo AEA** LED spots, to the Altrincham store in 2017 and they have been doing sterling service ever since.

With the spotlights reaching their rated end-of-life, Jake Shoes approached Gamma to supply replacements. Rather than simply buying new fittings, it was decided that it would be more cost-effective and sustainable to refurbish the existing ones through our Renew and Reuse Workshop, taking advantage of advances in LED technology to increase performance and efficiency.

Sustainable lighting solution

Renew and reuse

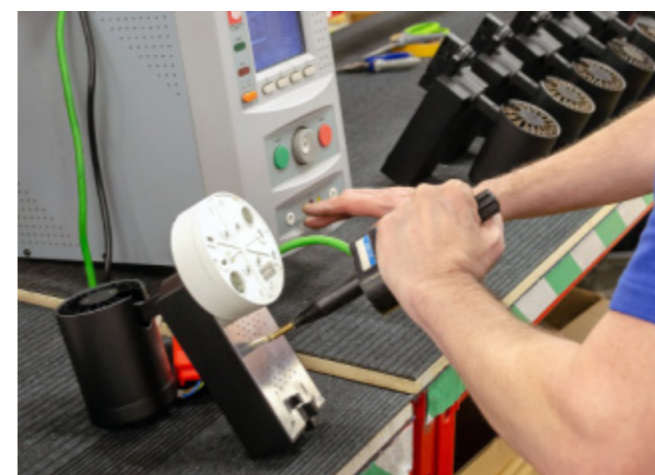

Each luminaire disassembled and inspected

Old LEDs, drivers & damaged components removed for recycling

Salvaged components cleaned and reassembled with new LED module, driver and reflector

Each luminaire tested and inspected...

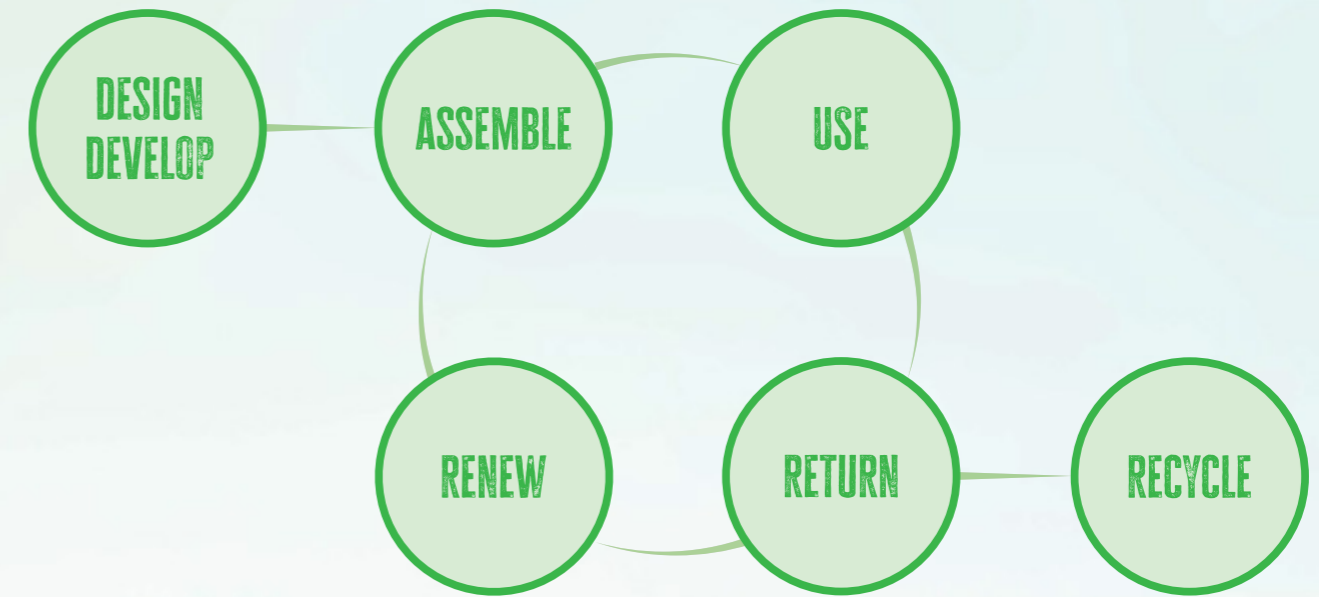

... packed and returned to site

Project results

- Luminaires refurbished and back on site within 5 working days
- 85% of components salvaged and reused instead of being scrapped or recycled
- 33% saving in energy usage with advances in LED technology
- Lumen output maintained
- Full 5 year warranty
- Product designed to comply with the requirements of BS 8887
